

On 10/1/20, WADI hosted a Contractor Training Class for our Weatherization Program Contractors. Jason Kessel from Western Egyptian Economic Opportunity Council was the instructor. Jason reviewed Illinois Home Weatherization Field Standards, set up a blower door demonstration and provided information to the Architectural and Mechanical Contractors. The contractors in attendance were: J. Odle Construction, Inc. (Benton, IL), Gene's Construction (Herrin, IL), Sharp's Heating & Air, Inc. (Carrier Mills, IL), Tidwell Heating & Air (Mulkeytown, IL), and John's Mechanical (Marion, IL).

The Illinois Home Weatherization Assistance Program is designed to help low income households save on energy costs while increasing the comfort of their homes. If you would like additional information about the Weatherization Program please visit our website at wadi-inc.com or contact the WADI office in the county in which you live.
